SHMS Branch Change Report

File-wise summary | Baseline: feature/admin-module | Current: ai-changes | Snapshot: 03 Nov 2026

Important Git status: `feature/admin-module` aur `ai-changes` ka HEAD same commit par hai (0 commits ahead/behind). Neeche ke differences committed branch commits nahi, balki current worktree ke edits/additions/deletion hain.

Inventory: 61 tracked files modified, 1 tracked file deleted, aur 12 untracked files (74 entries total). Untracked database/manual ko source feature nahi maana; transparency ke liye list kiya hai. Yeh report apne aap inventory mein include nahi hai.

Main updates: admin reports/CSV downloads; global search and notifications; security audit trail; billing/payment/receipt safeguards; account/access and workflow refinements; refreshed navigation/screens; expanded tests.

Problems/guardrails addressed: duplicate/early bills aur unauthorized doctor bill/payment access roke; overpayment/full-paid payment attempt guard; superuser default role ADMIN; invalid report date range aur spreadsheet formula CSV values guard; failed login/access-denied events log; role-scoped search and safe return URL.

Verification: Report Git diff aur current source inspection par based hai. Automated test suite is report ke liye run nahi ki gayi, isliye test pass hone ka dawa nahi hai.
